

WENRUI HUANG

CONTACT	Email: wenrui_huang@brown.edu Office: Kassar House 020 Department: Mathematics, Brown University Address: 151 Thayer Street, Providence, RI 02912		
EDUCATION	Brown University <i>Ph.D. in Mathematics</i> • Advisor: Benoît Pausader	Providence, RI 2022 - 2027 (<i>expected</i>)	
	University of Science and Technology of China (USTC) <i>B.S. in Mathematics</i> • Advisor: Yong Wei • Thesis: Mean curvature flow with surgery and its applications	Hefei, China 2018 - 2022	
RESEARCH INTERESTS	Partial differential equations, nonlinear dispersive PDEs and kinetic equations, stability and long-time behavior.		
PAPERS AND PREPRINTS	1. In preparation 2. <i>Scattering map for the Vlasov-Poisson system with a repulsive harmonic potential</i> , with H. Kwon. arXiv:2602.21344. 3. <i>Stability and instability of small BGK waves</i> , with D. Bian, E. Grenier, and B. Pausader. arXiv:2601.10030. 4. <i>The Vlasov-Poisson system with a perfectly conducting wall: Convex domains</i> , with B. Pausader and M. Suzuki. arXiv:2412.13434. 5. <i>Modified wave operators for the Hartree equation with repulsive Coulomb potential</i> , arXiv:2411.02737. 6. <i>Scattering of the Vlasov-Riesz system in three dimensions</i> , with H. Kwon. To appear in Annales Henri Poincaré. arXiv:2407.16919.		
TALKS	• GLESPA Seminar, Brown University • Poster Session, Workshop on Kinetic Theory and Fluids, University of Wisconsin–Madison • Brown–Yale PDE Seminar, Brown University • GLESPA Seminar, Brown University • Brown–Yale PDE Seminar, Brown University	Apr. 2026 Mar. 2025 Apr. 2024 Apr. 2024 Nov. 2023	
TEACHING	Brown University • Instructor, MATH 090 Calculus I, Fall 2026 • TA, MATH 0190 Calculus II (Physics/Engineering), Fall 2025 • TA, MATH 0180 Calculus III, Spring 2024 • TA, MATH 0180 Calculus III, Fall 2023 • TA, MATH 0100 Calculus II, Spring 2023 University of Science and Technology of China • TA, Riemannian Geometry, Spring 2022 • TA, Differential Geometry, Fall 2021		

- TA, Topology, Spring 2021 and Spring 2022
